

Description

Liquid Aluminium spray is a smooth finish spray offering corrosion-protection for most solid surfaces.

Range of application

Can be sprayed on most solid surfaces such as metal, wood, plastic, etc.

Excellent for air conditioning units, galvanised surfaces, furnaces and ovens, pipes, machine housings, tanks, truck parts, silos, exhaust pipes, wheel rims, welded joints etc...

Features

- Ultra-fine pure aluminium lamina for smooth surface finish and cathodic anti-corrosion
- Protection up to +800°C [+1 470°F]
- Electrically conductive (spot welding)
- Thermic diffusion on steel from +825°C [+1 520°F]
- 400 ml [13.52 fl.oz.] may coat up to 8-10 m² [86 -108 ft²]
- Shine finish
- Gloss aluminum
- 99.5% aluminium in the dry film
- 99.5% aluminium purity
- Temp. resistance up to +800°C [+1 470°F]

400 ml
