

# CLIMANET spray

## DESCRIPTION:

Foaming sanitizing detergent for finned radiators of low-residuality air-conditioners and fan-coils, for interiors and exteriors, dissolving effectively also organic dirt (e.g. gnats) accumulating on laminated cores of air-conditioners, compressors and radiators. Thanks to its biocidal activity guarantees the elimination of viruses bacteria and parasites such as Escherichia coli, Proteus mirabilis, Pseudomonas aeruginosa, Staphylococcus aureus, Candida albicans, Saccharomyces cerevisiae, Legionella pneumophila. **Product according to law 155 on H.A.C.C.P.**

## INSTRUCTIONS FOR USE:

Periodically spray directly on the parts concerned as needed. The foam producing has a disintegrating effect on dirt and may not be rinsed. In internal units condensate will sufficiently wash the product away.

## TECHNICAL DATA:

Appearance	colorless liquid
Odor	characteristic
pH	8,6 ± 0,5
Relative density of the liquid phase	0,995 ± 0,005 g/cm <sup>3</sup>
Relative density of the mixture	0,810 ± 0,005 g/cm <sup>3</sup>
Dry residue %	2,3 ± 0,5 %
Bomb pressure	3,5 Bars
Volume of the containers	800 ml
Volume of the product	600 ml
Poling point	~ 100 °C
Water solubility	complete
Flash of the propellant	extremely flammable

## PACKAGING:

600 ml bomb, boxes of 12 pieces.

## INGREDIENTS:

Aqua, Isopropyl Alcohol, Alcohol, PPG-2 Methyl Ether, Triethanolamine, Tea-dodecylbenzene Sulfonate, Parfum, C9-11 Alcohols, Alcol Etopropossilato, Limonene, Citral, Tetrasodium EDTA, Sale Trietanolamminico dell'Acido 2-fosfonobutan-1,2,4-tricarbossilico, Citronellol, Geraniol, Linalool, Methylisothiazolinone, Benzisothiazolinone.
