

## Cable Stripper No. 4-29 Spiral

WEICON Stripping Tools enable the precise, fast and safe stripping of all common round cables. The product family of cable strippers includes different types featuring different additional functions and thus meeting the individual application requirements of their users.

Cable Stripper No. 4-29 is very robust, precise and suitable for soft as well as rigid insulations of cables with a diameter of 4.5 - 29 mm. The different cutting directions for round, spiral and longitudinal cutting can be safely set via the respective position of the adjustment lever. Thanks to the spiral cut, even complex insulations can be removed easier. The cutting depth can be adjusted easily and precisely. It can be set with a lockable control knob in 0.1 millimetre steps from 0 to 3 millimetres. That way, the layers below are not damaged. The handy and ergonomic tool features a locking system. This function prevents the tool from opening in the longitudinal cut setting. Therefore, breaking of the hardened steel blade due to incorrect handling is prevented. The special sliding properties of the contact surface guarantee resistance-free working on the cable. A special grind of the replaceable blade ensures the clean removal of the outer sheath.

### Technical Data

Cable type	cables with an outer sheath thickness up to 3 mm
Application area	Outer diameter 4.5 - 29 mm Round, longitudinal and circular cutting
Material	polyamide, steel, brass
Inner blade	replaceable + adjustable in 0.1 mm steps
Accessories	Spare knife, art. no. 52953050
Weight	136 g
Length	140 mm
Article number	MA52000029

Attention:  
Tool not to be used on live cables or conductors.
